PROFILE

Computer Science student at Herald College Kathmandu, Naxal with a strong interest in full-stack web development. I enjoy building responsive and database-driven web applications using HTML, CSS, JavaScript, PHP, and MySQL. Currently developing practical projects to improve my frontend, backend, database, and problem-solving skills.

PROJECTS

FoodDeliveryapplication

Ongoing full-stack food delivery web application

- Building customer, restaurant owner, rider, and admin-side workflows using HTML, CSS, JavaScript, PHP, and MySQL.
- Implemented core flows such as restaurant browsing, cart, checkout, order tracking, rewards, and support/contact pages.
- Practicing real-world structure with frontend pages, backend controllers, REST-style endpoints, and MySQL database integration.

Personal Portfolio Website

Responsive developer portfolio

- Designed and developed a personal portfolio to showcase my skills, education, projects, and contact information.
- Built responsive sections for About, Experience, Projects, and Contact with clean UI and JavaScript animations.

EDUCATION

Bachelor in Computer Science

May 2024 - Present

Herald College Kathmandu, Naxal

- Studying core computer science and software development concepts with a focus on practical web development.

High School

May 2021 - Nov 2023

Trinity College, Kathmandu

- Completed higher secondary education with a foundation for further study in technology.

CAREER OBJECTIVE

Looking for internship or junior developer opportunities where I can contribute to real projects, strengthen my full-stack development skills, and grow as a professional software developer.
